We supply a comprehensive range of field instrumentation, analytical and calibration products for measurement and control within the process industry sectors. We are a well established supplier of GMP critical instrumentation and measuring equipment to the Irish Pharmaceutical and Medical Device manufacturing sectors.

Some of the process industries we serve are Pharmaceutical, Medical Devices, Power, Oil & Gas, Chemical, Semiconductor & Electronics, Food & Beverage, Waster Water Treatment.

- On-Site or Off-Site Training on
- Products and Calibration

DATA ACQUISITION & CONTROL

- Paper & Paperless Chart Recorders
- Digital Controllers
- MCPS Software

CALIBRATION TEST & MEASUREMENT

- Temperature Calibration
- Conductivity Calibration
- Electrical Calibration
- Pressure Calibration
- Flow Calibration

ANALYTICAL INSTRUMENTATION

- pH Meters & Probes
- Conductivity Meters
- Dissolved Oxygen
- Density Meters
- Moisture Analysers
- Near Infrared Analysers

PROCESS INSTRUMENTATION

- Ultrasonic Flow Meters
- Vortex Flow Meters
- Magmeters
- Coriolis Flow Meters
- Pressure Sensors
- Level Sensors
- Temperature Sensors
- Wireless ISA100.11a

ELECTRICAL & SIGNAL CONDITIONING

- Voltage / Current Transducers
- Signal Isolators
- Power Meters
- Energy Meters

SERVICE

- Validations / Annual Calibrations
